3. Reduction of the share capital

Proposed resolution: The general shareholders' meeting decides to reduce the Company's share capital, resulting in a reduction of the fractional value of the Company's shares to EUR 0.10 per share, and to resolve, in implementation hereof, as follows (whereby the amounts or numbers referred to in the sub-sections between square brackets shall be determined at the time of the approval of the proposed resolution in accordance with the proposal set out in such sub-sections):

- (a) Subject to the application of the provisions of Articles 612 and 613 of the Belgian Company Code, the share capital of the Company shall be reduced with such amount so that the amount of the resulting share capital shall be equal to the number of outstanding shares multiplied by EUR 0.10, and whereby the amount of the capital reduction shall be booked immediately to an unavailable issue premium account. As a result hereof, the share capital of the Company shall be reduced to the number of outstanding shares at the time of the approval of the proposed resolution multiplied by EUR 0.10.
- (b) The capital reduction shall occur without cancellation of existing shares of the Company, is to be borne by each of the existing shares in the same manner, and shall be fully imputed on the fiscal paid-up share capital. Following the capital reduction, each share shall represent the same fraction of the Company's share capital. As a result, the Company's share capital shall amount to [the number of outstanding shares as at the time of the approval of the proposed resolution multiplied by EUR 0.10], represented by [the number of outstanding shares as at the time of the approval of the proposed resolution], whereby each share shall have a fractional value of EUR 0.10.
- (c) In accordance with Article 613 of the Belgian Company Code, no distribution to the shareholders of the issue premium so booked shall be permitted as long as the demands for additional collateral, as the case may be, by creditors who within a term of two months following the publication of the present resolution in the Annexes to the Belgian Official Gazette have made a demand for additional collateral for receivables that came into existence prior to, and that have not yet matured at, the date of such publication or for which proceedings have been initiated in a court of law or an arbitral tribunal before the date of the general shareholders' meeting approving the present resolution, have not been satisfied,

unless such demands for additional collateral have been rejected by an enforceable ruling by a competent court of law.

- (d) The amount of the capital reduction shall be booked as issue premium. This issue premium shall be accounted for on the liabilities side of the Company's balance sheet under its net equity. The account on which the issue premium shall be booked shall, like the share capital, serve as the guarantee for third parties and can only be reduced on the basis of a lawful resolution of the general shareholders' meeting passed in the manner required for an amendment to the Company's Articles of Association.
- (e) Article 5 of the Company's Articles of Association shall be amended and restated to take into account the aforementioned capital reduction.
- (f) In view of the aforementioned reduction of the fractional value of the Company's shares, the amount of the authorised capital mentioned in Article 9 of the Articles of Association, shall be reduced in the same manner, and accordingly, be reduced from EUR 370,649,145.92 (being the amount of the Company's share capital at the time of the grant of powers under the authorised capital) to EUR 17,002,254.40 (being an amount equal to EUR 0.10 multiplied by the number of shares outstanding at the time of the grant of powers under the authorised capital, being 170,022,544 shares).
